INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/00381

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:
Please See Continuation Sheet

1. ☒ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest ☐ The additional search fees were accompanied by the applicant's protest.
☐ No protest accompanied the payment of additional search fees.

BOX III. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In order for all inventions to be examined, the appropriate additional examination fees must be paid.

Group I, claim(s) 1,2, drawn to water treatment plant with microporous membrane.

Group II, claim(s) 3-5, drawn to water treatment plant control device.

Group III, claim(s) 6-8, drawn to water treatment plant with filters in series, pump and controller.

Group IV, claim(s) 9-16, drawn to Fluid container device with sensor, etc.

Group V, claim(s) 17,29,30, drawn to water treatment plant with ion exchange.

Group VI, claim(s) 18,19, drawn to water treatment plant with resistivity monitor to shut pump.

Group VII, claim(s) 20,21, drawn to water treatment plant with UV.

Group VIII, claim(s) 22, drawn to fluid container device with mating external connector seal.

Group IX, claim(s) 23, drawn to water treatment plant with download software instructions.

Group X, claim(s) 24-28, drawn to water treatment plant having a controller to read unique identifier data.

The inventions listed as Groups I-X do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: no common special technical feature was found.
